PROFESSIONAL SUMMARY

Accomplished Senior React Native Developer with 5+ years of progressive experience in mobile application development. Proven expertise in designing, developing, and deploying 15+ cross-platform mobile applications with exceptional user engagement metrics. Demonstrated ability to lead development teams, optimize application performance by 30%, and deliver scalable solutions that exceed client expectations. Strong background in state management, API integration, and mobile app deployment across iOS and Android platforms.

PROFESSIONAL EXPERIENCE

Senior React Native Developer

Jan 2025 - Present

ReadyHubb, Dubai

- Spearheaded development of enterprise-level mobile applications using React Native and TypeScript, ensuring robust and scalable solutions
- Architected and implemented advanced state management patterns using Redux Toolkit and Context API for complex application workflows
- Optimized application performance through code splitting, lazy loading, and efficient rendering techniques, achieving 40% faster load times
- Mentored development team of 3 junior developers, establishing coding standards and best practices for mobile development
- Integrated advanced features including real-time notifications, offline data synchronization, and biometric authentication

React Native Developer

January 2022 - Dec 2024

XIOTS, Islamabad

- Designed, developed, and maintained 10+ cross-platform mobile applications using React Native, resulting in 15% increase in user engagement
- Collaborated with product managers, designers, and developers to convert business requirements into technical solutions, reducing project timelines by 25%
- Delivered exceptional user experiences across iOS and Android platforms, contributing to 25% boost in app store ratings
- Implemented comprehensive state management solutions with Redux, optimizing performance by 30% and improving maintainability
- Led code reviews and mentored junior developers, fostering collaborative environment that improved team productivity by 10%
- Integrated complex third-party APIs including payment gateways, mapping services, and social media platforms
- Established CI/CD pipelines for automated testing and deployment, reducing deployment time by 50%

React Native Developer

November 2020 - December 2021

Digit Solutions, Islamabad

- Developed and deployed mobile applications using React Native for diverse client requirements
- Collaborated with cross-functional teams to ensure high-quality code delivery and efficient project completion
- Integrated third-party APIs and libraries to enhance application functionality and user experience
- Participated in agile development processes and sprint planning to meet project deadlines consistently

KEY PROJECTS

Taxi Booking Application

TECHNICAL SKILLS

Mobile

Development

React Native, TypeScript, JavaScript (ES6+), React Hooks, React Navigation, Expo

Backend

Integration

RESTful APIs, GraphQL, WebSocket, Firebase, AWS Services

Development

Tools

Xcode, Android Studio, VS Code, Flipper, Reactotron

Testing & Quality

Jest, Detox, Appium, ESLint, Prettier, SonarQube

UI/UX Libraries

React Native Paper, NativeBase, Material UI, React Native Elements

State

Management

Redux Toolkit, Context API, Zustand, MobX, React Query

Payment

Systems

Stripe, Stripe Terminal SDK, PayPal, Apple Pay, Google Pay

Version Control

Git, GitHub, GitLab, Bitbucket, Git Flow

CI/CD &

Deployment

App Store Connect, Google Play Console, Fastlane, CodePush, GitHub Actions

Performance &

Security

Performance Optimization, Memory Management, App Security, Biometric Authentication

EDUCATION

Master of Science - 2021 -

Engineering Management 2023

Bahria University Islamabad

Bachelor of Science - 2016 -

Computer Science 2020

Taxi Booking Application

Lead React Native Developer

Technologies: React Native, TypeScript, Google Maps API, Google Places API, Stripe Payment Gateway, RESTful APIs, Redux Toolkit

Developed comprehensive taxi booking application with real-time GPS tracking, dynamic pricing, and secure payment processing. Implemented advanced features including ride scheduling, driver rating system, and in-app messaging. Achieved 25% increase in user engagement and 4.8-star app store rating.

Food Delivery Platform

Senior React Native Developer

Technologies: React Native, Firebase, Stripe, Socket.io, RESTful APIs, React Navigation

Created full-featured food delivery application with real-time order tracking, multi-vendor support, and integrated payment systems. Implemented push notifications, order history, and customer feedback mechanisms. Delivered 15% increase in customer satisfaction and 30% reduction in order processing time.

Restaurant POS & Ordering System

Technical Lead

Technologies: React Native, Stripe Terminal SDK, Firebase, Cloud Firestore, RESTful APIs, Offline Storage

Designed and implemented enterprise-grade point-of-sale system with inventory management, order processing, and analytics dashboard. Built offline-first architecture with data synchronization capabilities. Improved restaurant operational efficiency by 20% and reduced order processing time by 30%.

Dog Owners Social Network

React Native Developer

Technologies: React Native, Firebase Authentication, Cloud Storage, Push Notifications, Socket.io

Developed niche social media platform featuring user profiles, photo sharing, community forums, and real-time chat functionality. Implemented content moderation, personalized recommendations, and location-based features for local dog meetups.

Foundation University Islamabad

CORE COMPETENCIES

Mobile Architecture: Component Design, Design Patterns, Clean Architecture

Performance: Code Optimization, Memory Management, Bundle Size Reduction

Methodologies: Agile Development, Scrum, Test-Driven Development

Leadership: Team Mentoring, Code Reviews, Technical Documentation

Problem Solving: Debugging, Troubleshooting, Performance Analysis

LANGUAGES

English: Professional Working Proficiency

Urdu: Native Speaker

ACHIEVEMENTS

- Delivered 15+ successful mobile applications
- Improved app performance by average 30%
- Increased user engagement by 25%
- Led teams of up to 5 developers
- Maintained 4.5+ app store ratings
